# TESLA
## Technology for all

ITS BEST WHEN WE
ARE TOGETHER!

**Nikola Tesla, a man with a vision.**

# Nikola Tesla

A world where every person has access to technology.

Tesla believed that advances in technology shouldn't be a privilege for the few, but a benefit for everyone.
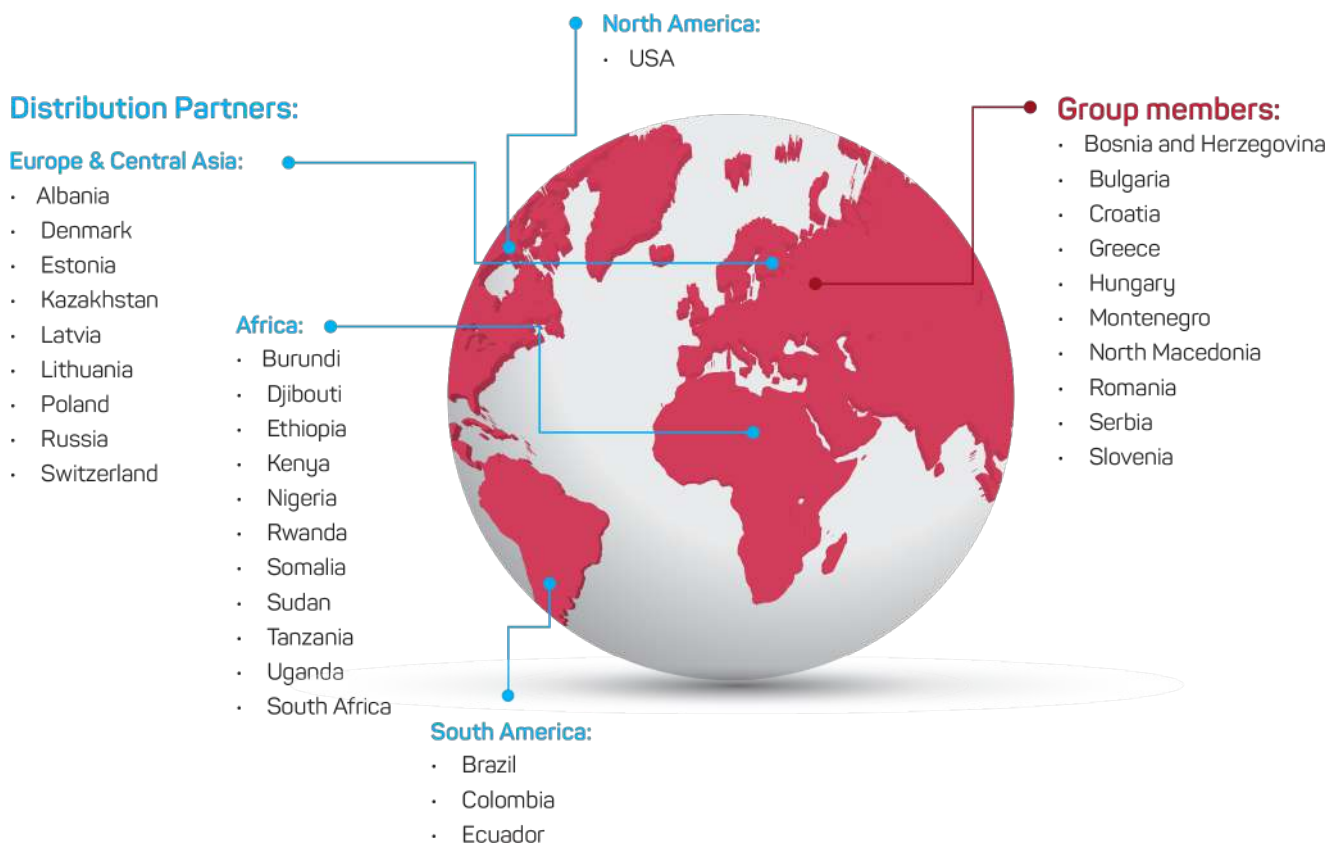

# Contents

Tesla Innovation DMCC, is headquartered in Dubai, with sales offices in Djibouti and Somalia. The Dubai office coordinates activities of the entire region, bringing the very latest in product offerings from the brand to its customers. We offer our customers the flexibility of mixed containers re-exported out of JAFZA or the DJIBOUTI FREE ZONE, as well as Direct shipments from our global factories to end destinations.

We are a business focused on bringing affordable innovation to the region, with high-quality products that make sense for living our daily lives better. Our values reflect our dedication to delivering these high-quality products and services, building lasting relationships, and holding ourselves accountable to our core values.

# Tesla brand presence

The brand is sold successfully in over 30 countries spread across 5 continents. With customers spread over the world vouching for product quality & performance, TESLA has close to 10% markest share in its leading markets.

**North America:**
- USA

**Distribution Partners:**

**Europe & Central Asia:**
- Albania

# Mission

Our mission is to enable individuals and communities to reach their true potential by making their living and working environments better. At Tesla Innovation we aspire to build a community of satisfied customers by using technology to inspire change.

# Vision

For Customers to look at Tesla as a brand that they trust and prefer to partner with on a journey to make their lives better.

# Brand Association

When thinking of Tesla, our partners, stakeholders and consumers should think of a company that brings affordable and reliable technology to people.

# Product Range

At Tesla Innovation we believe technology should not be a privilege for the few, but a benefit for everyone. In keeping with this vision, Tesla Innovation is committed to bringing cutting edge technology in Consumer electronics and home appliances to the region, at affordable prices. The Tesla product portfolio includes Air conditioners, panels, major domestic appliances & small kitchen appliances.

# PANELS
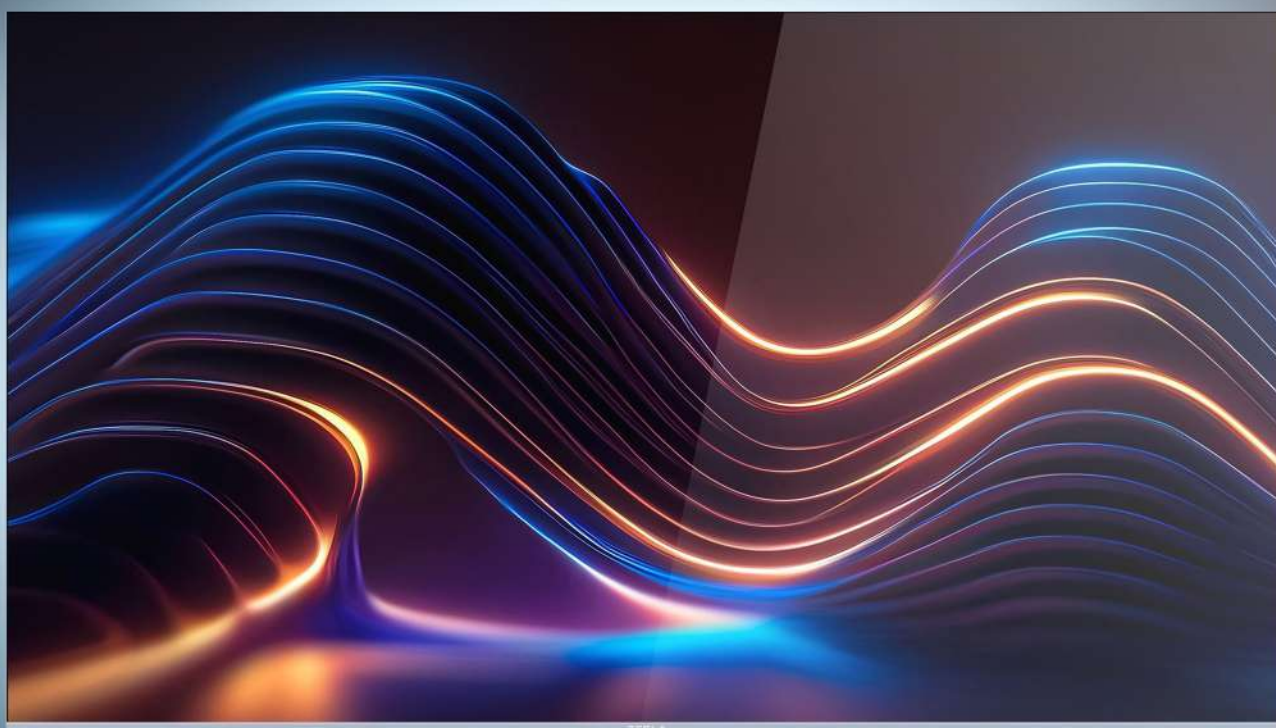

# KEY FEATURES

## QLED
### 1.07 BILLION COLORS

QLED transforms your viewing. Quantum Dot tech delivers a billion colors for a vivid experience. Enjoy the brightest Tesla TV picture, remarkable contrast, and perfect detail.

## TV
### STYLISH DESIGN

With its ultra-thin screen, minimalistic style, and low TV stand, it seamlessly complements any living room. It's equally elegant as a focal point.

## MAGIC REMOTE

Make the magic remote your all-in-one solution for controlling devices. Use it like a computer mouse: zoom, scroll, navigate, and launch apps with ease.

## AI VOICE RECOGNITION SYSTEM

The ThinQ AI voice system understands over 13 languages. Control your TV, search, play music, and browse using just your voice with the magic remote.

## LET THE MUSIC PLAY

Experience a dancefloor in your living room with our Class-D amp and BOX speakers. Enjoy incredible TV sound, enhanced by the Music player app that lets you listen even with the screen off.

## GOOGLE HOME INTEGRATION

Control any smart home device using the built-in Google Assistant: turn on the lights, turn down the heating, and much more.

## BLUETOOTH DEVICES

Use your TV as a Bluetooth speaker or enjoy private entertainment with ease. Connect Bluetooth headphones and other devices like speakers, mouse, keyboard, and gamepad

## BUILT-IN CHROMECAST

Chromecast streams content from smart devices to the big screen in a few simple steps, allowing easy remote control from anywhere in your home.

# TESLA
Technology for all

# KEY FEATURES

### DESIGNED TO IMPRESS
The adjustable monitor stand and pivot function open new possibilities to completely personalize one!s experience and gaming environment. A strong metal base, a sleek and sophisticated all-black design, and elegant-looking components help users completely disappear into their screen adventure-all while looking great in any setting.

### SCREW-FREE DESIGN
Tesla monitors use the best of the latest manufacturing trends: their elegant minimalism is achieved with a screw-free design, making the monitor appear as if it is made out of one piece - for an even smoother appearance.
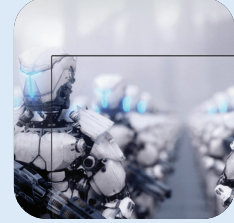

### FLUID SYNCHRONIZATION
Advanced frame synchronization is enabled with contemporary AMD FreeSync technology. This means screen tearing becomes a thing of past, while gaming experience is taken to another level.

### ADVENTURE IS FAST-PACED

- **Tesla fast IPS panel** combine the best of different technologies. Get ready for an adventure of a lifetime with a vivid picture, stunning color reproduction, great viewing angles and an amazing refresh rate of 165Hz!

- **Outstanding response time of just 1ms** reduces blurring and ghosting to a minimum, maximizing game intensity.

- Tesla Vision monitors are also compatible with **AMD FreeSznc and NVIDIA G-Sync** technologies.

# AIR CONDITIONERS

# KEY FEATURES

## HEPA FILTER

HEPA H11 filter successfully removes PM 2.5 particles, fine dust, microbes and pollen.

## EASY CLEANING & WASHABLE FILTER

Easily clean the indoor unit filter with a few simple steps: disassemble your AC, replace the HEPA filter, clean the mesh filter, and reassemble.

## 3D/SMART AIRFLOW

Depending on the model, you can choose between different air dispersion positions available, such as blanket-style, shower-style, breeze etc.

## LOW-NOISE AIRFLOW

Without decreasing the airflow volume, this device feature can help reduce noise levels of AC indoor unit by lowering the fan speed.

## ADDITIONAL HEALTH FILTER: IONIZER

Ionizers help microorganisms settle, reducing inhalation risks. Ideal for allergy sufferers.

## WI-FI

Control your Tesla air conditioner using Wi-Fi from your smartphone or smart devices for added convenience and comfort.

# KEY FEATURES

### NIGHT MODE
When this mode is activated, your AC can increase or decrease temperature by 1ºC per hour during the first three hours.

### A+++
When selecting an AC, prioritize energy efficiency. Wall-mounted AC models are typically rated A+ or higher, with the most efficient units reaching A+++

### I FEEL
The remote control monitors the current temperature and signals the air conditioner to optimize room comfort.

### ANTI-FUNGUS
After exiting cooling and dehumidifying mode, the air conditioner activates the Anti-fungus feature to inhibit the spread of fungi and bacteria, promoting a healthier environment.

### SELF-DIAGNOSTIC
The air conditioner can self-monitor and detect issues with its components. When problems are identi！ed, it automatically shuts off, displaying an error code on the indoor unit.

### AUTO RESTART
The AC can automatically memorize the operation settings when power goes out unexpectedly, so it can restore them and continue working when the energy supply is back on.

# KEY FEATURES

### WIFI
Thanks to the WiFi function, your AC can be controlled with a mobile phone or other smart devices.

### DRAIN FREE TECHNOLOGY
In the cooling mode, the liquid goes back to the evaporator, so there is no need for the condensation drain hose.

### FAN MODE
Air circulation function can be turned on without switching the AC on.

### REMOTE CONTROL
Activate any option with an easy-to-use remote.

## PORTABLE ACs

# AIR
# PURIFIERS

# KEY FEATURES

## CLEAN AIR, BETTER LIFE

Tesla air purifier makes sure that the air you breathe is perfectly fresh and clean.

## AIR QUALITY SENSORS

Tesla's built-in air quality sensors display real-time pollution levels with color-changing LED icons, matching widely-used AQI values.

## CARES FOR YOUR HEALTH

HEPA activated carbon filter removes air pollutants and bacteria, making sure that you and your loved ones spend time in a healthier environment

## FEEL THE DIFFERENCE

Eliminate unwanted particles like dust, pollen, microbes, and mild spores with Tesla's high-efficiency air purifier and versatile filtration options.

## PURE TECHNOLOGY AT HAND

All you need is Wi-Fi – and you'll get a breath of fresh air, Literally. Turn on your air purifier from anywhere and anytime using smart application.
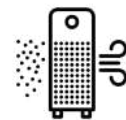

## SIMPLE, SMART, SLEEK

Tesla Air Purifier: Where Tech Meets High Performance. With a CADR of 300m³ per hour, it's pure efficiency.

## AIR THAT YOU CAN TRUST

Monitor air quality effortlessly with Tesla's built-in sensors, displaying real-time pollution levels on color-changing LED icons using widely-recognized AQI values.

## UV LAMP

To boost efficiency in eliminating viruses, bacteria, and mold, the Tesla air purifier includes a UV lamp as an extra layer of protection for your family.

| FILTER REPLACEMENT INDICATOR | YES |

## AIR PURIFIER TO GO!

Did you ever want to bring your air purifier with you and make sure you breathe healthier air throughout the day, wherever it takes you? Now you can, thanks to the new Tesla personal air purifier! This device is made to clean the air around the face of the person wearing it or around the surface it's placed on—for better quality air anytime, anywhere.

### SMALL, BUT POWERFUL

With dimensions of only 39W x 75L x 20T mm, and weighing only 46 g, you can literally take it anywhere in a pocket, turn it on, and relax. While you're working, cooking, or simply having fun with friends, your small and discreet protector is always on guard, defending you from different harmful microorganisms, allergens, pollen, and dust.

### SIMPLE & DURABLE

There are no filters you should worry about replacing or cleaning – simply turn the purifier on, and let it work for up to 180 hours with one charging! Feel free to make plans and pack for short travels knowing you get more than 7 days without having to worry about the battery. Once the lithium polymer battery is empty, it only takes 3 hours to charge.

### DESIGN TO PROTECT

If you're dreading the pollen season, the good news is that wearing a personal air purifier can also provide relief for people with allergies. Tesla personal air purifier cleans the air around you by emitting negative ions. Negative ions clean the air by attaching to the harmful particles, creating new, larger ones, which then fall to the ground, away from the person's face.

### MODERN & SILENT

Available in black, white, navy blue, and orange, this device is designed to look great while cleaning the air you breathe. You can wear it on an adjustable strap around your neck, place it on a device holder on any available surface, or attach it using a visor clip (available optionally). It is also very silent – there are no noisy fans or motors to distract you.

## EASY & CONVENIENT

This personal air purifier comes with a USB Type-C charging cable and also has an LED indicator that changes colors for your convenience. The blue light will gently blink while the device is cleaning the air, while the red one blinks to indicate charging. Once the charging is complete, the green light turns back on automatically.

# KEY FEATURES

## DIAMOND DRUM

This feature removes stains efficiently, minimizes tearing, and includes a light indicator for drum self-cleaning reminders.

## START DELAY UP TO 24

Need to postpone the washing? Just choose a time that fits your needs - up to 24 hours in advance.

## CHILD LOCK

Looking for a way to prevent children playing with the controls, or even unintentional use? The Child Lock function is a perfect solution.

## BLDC MOTOR

The BLDC (Inverter) motor offers over 70% energy savings compared to traditional motors.

## HAND WASH

Opt for the Hand Wash cycle for your delicate laundry, mimicking manual washing.

## DAILY WASH 15

Perfect for lightly soiled small loads, this quick cycle washes and rinses in just 15 minutes, saving you time and money.

## NIGHT MODE

NIGHT MODE If you prefer nighttime laundry or seek quieter operation, activate our night mode feature.

## BABY CARE

Our Baby Care cycle ensures spotless, efficient rinsing, and skin-friendly cleaning for children's clothes.

# REFRIGERATORS

# KEY FEATURES

## TOTAL NO FROST
Keeps your food frost-free and odors separate for fresher, faster cooling in both fridge and freezer compartments.

## SUPER COOLING
Thirsty for ice cold drink, very fast? No worries – our useful super cooling feature is here to the rescue, just in time for an important game or a favorite movie.

## SUPER FREEZING
Maximize freshness! Activate super-freezing for quicker freezing, preserving nutrients in your freezer goodies. Nutrient-packed bites, always ready.

## ICE MAKER
Ice on demand! Tesla's built-in ice maker, perfect for hosting friends with up to 1.5 kg of ice storage.

## WATER DISPENSER
Quench your thirst instantly with the external water dispenser feature. No more bottled water clutter in the fridge - just pure convenience!
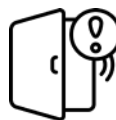

## DOOR ALARM
Stay cool, close that door! Hear a beep if you leave the fridge open too long, a friendly reminder to keep things chill and save energy.

## DC INVERTER COMPRESOR
The inverter compressor ensures quiet operation, steady cooling, less energy use, and a longer motor life.

## REVERSIBLE DOOR DESIGN
Flexible fridge style! Adjust your fridge door to open left or right to match your kitchen flow. Easy setup with the magnetic rubber door.

# TESLA
Technology for all

## A DIFFERENT SHADE OF ELEGANCE.

## TOTAL NO FROST

Total No Frost is a function based on the circulation of cold air that reduces humidity and prevents the accumulation of frost on the food in the refrigerator and ice on the walls of the freezer compartment.

The refrigerator and freezer compartments have separate airflow, ensuring that odors cannot mix between the compartments. Unlike conventional systems, Total No Frost cools both separate units faster.

## INVERTER COMPRESSOR

The inverter compressor allows the appliance to operate quietly, ensuring uninterrupted cooling, reducing temperature fluctuations & power consumption, and also extending motor lifespan.

## DOOR ALARM

A beeping signal will sound if you leave the refrigerator door open for longer than is recommended, reminding you to close it and stop the warm air from raising the inside temperature.

## F ENERGETIC CLASS

According to the new energy classification, this refrigerator belongs to class F. Compared to other appliances, this refrigerator consumes less electricity, so it protects the environment and saves money through lower electricity costs. Our appliances are equipped with excellent thermal insulation, improved door protection, firstclass cooling system components, and electronic controls that reduce energy consumption to a minimum.

## MULTI AIR FLOW SYSTEM

Keeping a constant temperature in the fridge is important, which is why Multi and DynaCool Air Flow systems distribute the air evenly into every part of the device, keeping it constantly ideal.

## WATER DISPENSE

An external water dispenser is a convenient addition to this model, allowing you easy access to cold water anytime. Forget about loads of bottled water in the fridge, and enjoy this simple alternative!
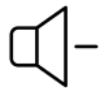

# CHEST FREEZERS

# KEY FEATURES

## 2-IN-1: A FREEZER OR A FRIDGE

This Tesla device is convertible, which means you can use it both as a freezer or a fridge. Thanks to the adjustable temperature setting, you can switch back and forth between the two modes.

## POWER FAILURE SAFE STORAGE

In case of a power shut down, the freezer can keep the temperature stable for more than 30 hours.

## LOW OPERATIONAL SOUND

Quiet compressors and noise-absorbing copper pipes allow the fridge to work almost silently.

## MAXI BOX IN FREEZER

Bought a large piece of meat or a king size ice-cream? Not a problem – the maxi box in your freezer will store even the largest groceries.

## STRONG & BALANCED HINGE

Strong hinges make the door stable in positions between 45 and 90 degrees. You can take out or stack the groceries without holding it!

## FRONTAL WATER DEFROST DRAIN

In order to make defrosting even easier, the defrost drain is easily accessible on the freezer front side.

## TRENDY ITALIAN DESIGN

We work with an amazing team of Italian designers to achieve a contemporary look outside and inside of the fridge, as well as a great finishing touch.

## R600A REFRIGERANT

Absorbs the heat faster when compared to other gasses, enabling a more energy efficient cooling.

# FREE STANDING COOKERS

# KEY FEATURES

## FASTER COOKING

Prepare all your favorite meals even faster: rely on our highly efficient gas burners.
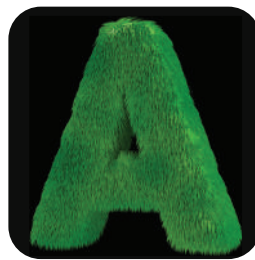

## AUTOMATIC GAS SHUTDOWN

Safety first: this device function registers the absence of gas and shuts the supply down automatically.

## SIMPLE IGNITION

Thanks to a special button, the gas burner can be lit quickly and safely.

## MINIMUM ENERGY, MAXIMUM PERFORMANCE

Compared to equivalent products, Tesla's A Energy Class ovens save power by using less electric energy.

## RESIDUAL HEAT INDICATORS

The signal lights will warn you about certain areas still being hot – do not touch them as long as the lights are on.

## REMOVABLE DOOR PLATE

Every Tesla freestanding cooker has a removable door, allowing an easy access and cleaning.

## FOR TASTIER BITES

The turbo grill oven, allowing an even temperature, will make your dishes taste great. Every bite will be a true pleasure!

## FULL GLASS PANEL

The oven door is made of full glass, without any bolts.

# VACUUM CLEANERS

# TESLA
## Technology for all

# KEY FEATURES

## ROBOT VACUUM CLEANER

### LASER NAVIGATION
Sensor aids device in learning house layout and obstacle locations for efficient cleaning in complex environments.

### ROUTE PLANNING
The robot optimizes cleaning with efficient pathfinding, recognizing and smoothly navigating around obstacles.

### SCHEDULED CLEANING
Schedule robot for convenient cleaning even when you're away.

### POWERFUL SUCTION
Strong motor (up to 3000 Pa) for highly efficient floor dirt removal.

### VCR600W

| | |
|---|---|
| NAVIGATION | LASER LDS + SLAM |
| BATTERY CAPACITY | 5200 (mAh) |
| SUCTION VACUUM PRESSURE (PA) | 600/1200/2500/3000 |
| DUST TANK CAPACITY (ML) | 600 |
| FILTER | HEPA, PRIMARY fiLTER, SPONGE fiLTER |
| POWER | 50 |
| COLOR | WHITE ☐ |
| BATTERY PACK | 14,4 V |
| CHARGING TIME (H) | 4-5 |
| NOISE LEVEL (DB) | 55/60/65/70 |
| POWER CONSUMPTION (W) | 50 |
| POWER PLUG | EURO |
| POWER CORD LENGTH FOR ADAPTOR (CM) | 150 |
| WEIGHT (KG) | 3,3/5,8 |

## HANDSTICK VACUUM CLEANERS

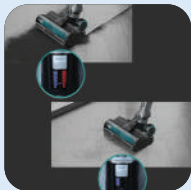

### SMART DUST SENSOR
Smart dust sensor boosts cleaning efficiency by adjusting suction based on dust levels.

### THREE-STAGE FILTRATION
Triple filter system enhances dust collection, maintains clear air duct, and prevents dust return.

### HOUSE CLEANING OIN ONE GO
Replaceable battery for 60 mins of continuous cleaning. Easy charging and reliable use.

### PRO FLEX FOLDING TUBE
Pro Flex technology for easy access, no uncomfortable bending. Dust-detecting light for ef}cient cleaning.

### HS500GF

![TESLA Technology for all]
## A FLEXIBLE WAY TO CLEAN YOUR HOME

Powerful and portable Tesla cordless vacuum cleaner with a new foldable design which allows you to effortlessly clean all the areas of your home.
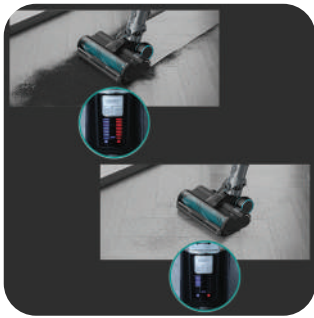

### SMART DUST SENSOR

A smart dust sensor increases cleaning efficiency, device longevity and battery life by detecting high dust levels and increasing suction power through five different levels, as needed. This allows the device to effectively clean areas with more dirt using increased suction power.

### PRO FLEX FOLDING TUBE

Designed with Pro Flex bending technology to provide access to unreachable and low areas, there's no need for bending or vacuuming in awkward positions. It also includes a dust-detecting light that illuminates areas with dust, allowing more efficient and thorough cleaning.

### SUPER VACUUMING

Outstanding and powerful suction power enables high cleaning efficiency and helps capture all dust particles, from the smallest gaps in the carpet, the floor or corners.

### HOUSE CLEANING IN ONE GO

Featuring a removable and replaceable high-performance battery, this vacuum cleaner allows for up to 60 minutes of uninterrupted cleaning time. The battery can be charged outside of the device and easily replaced, ensuring extended and reliable use of the vacuum cleaner.
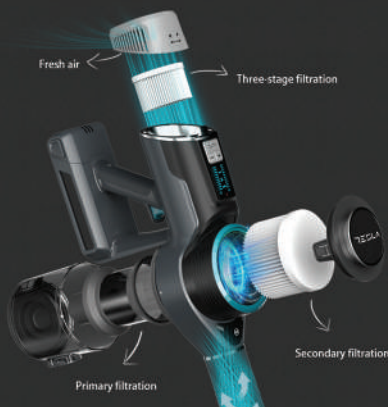

## THREE-STAGE FI LTRATION

A triple separate filter system improves the dust collection capacity, keeps the air duct unobstructed, and prevents the return of dust to the room through the suction channel. In addition to this, this filter system can also reduce the number of allergens in the air, making it an ideal choice.

# COOKTOPS

# KEY FEATURES

## BOOST
Need a boost? The turbo booster enables rapid heating and cooking. It is activated and deactivated with a simple touch.

## CHILD LOCK
Simply touch the icon to activate the Child lock option and make every following command invalid. The cooktop continues to work according to the last command before being locked. A three-second touch is all it takes to unlock it.

## AUTO SWITCH OFF SAFETY
When a built-in heat sensor registers very high temperatures, the cooktop automatically switches off.

## SCHOTT CERAN GLASS
Tesla cooktops are made from high-quality Schott Ceran® glass ceramics.

## BEVELLED EDGES
Looking for an elegant finish? We payed special attention to polishing the edges, ensuring they fit seamlessly into any kitchen interior.

## ENERGY EFICIENCY
The energy efficiency of induction cooktops is 90%. This is quite a difference in comparison to standard stove burners, whose energy efficiencyis below 62%.

## MAXIMUM SAFETY
Safety first! We've paid special attention to safety of our cooktops with gas burners. Each of them is equipped with a "Flame Failure Safety Device" which prevents gas leakage and potential danger to you and your loved ones.

## LPG TO NG CONVERSION KIT
You have choices - Tesla gas cooktops can use both propane-butane and natural gas, according to your wishes and preferences.

# RANGE HOODS

# KEY FEATURES

## CARBON FILTERS

With the help of carbon filters, the air *in* your kitchen will be clean and refreshed.

## LED LIGHTING SYSTEM

*When compared to conventional lighting systems, LED powered lighting consumes less energy. It also adds to the elegant look and a unique atmosphere of your kitchen!*

## FILTER CLEAN SENSOR

A warning system will notify you exactly when it is time to replace or clean your ALU filter.

## TELESCOPIC CHIMNEY

No matter how high your kitchen ceiling is, with the help of a telescopic chimney, you can use different models of hoods. Thanks to the telescopic (double) chimney system, the inner chimney can extend out to any preferred height.

## MOTOR POWER DESIGN

*Thanks to a special motor design, our hoods work energy efficiently, keeping the noise level low. Depending on your kitchen size, choose between different levels of ventilation power.*

## DISHWASHER SAFE FILTERS

Our ALU filters are safe to be washed in dishwashers.

# BUILT-IN OVENS

# KEY FEATURES

## EASY TO CLEAN CAVITY AND TRAYS

The inside of the oven is made out of one piece, creating an easy to clean, smooth surface.

## STRONG DOOR HINGES

Door hinges can handle a load of up to 22,5 kilograms, guaranteeing stable door opening and closing.

## STEAM CLEANING

Here comes an elegant and quick cleaning solution! Simply pour two glasses of water into a large pan and turn the oven to 70 degrees for half an hour.

## POP-UP KNOBS

Press the knob once for it to pop out, and when you press it again – the oven will go back to being flat and compact.

## HIGH AND LOW GRILL

Thanks to the different grill intensity levels, you can prepare food any way you prefer – all energy efficiently.

## 3D FUNCTION

This option allows the heat to flow evenly, quickly raising the temperature in the oven.

## DOUBLE BLACK GLASS DOOR

Modern double glass door is heat-reflective, making the oven exterior safe to touch.

## REMOVABLE DOOR PLATE

Every Tesla built-in oven has a removable door, allowing an easy access and cleaning.

# DISHWASHERS

# KEY FEATURES

## EASY TO CONTROL

In order to start the dishwasher, simply choose one of the predefined programs.

## CHILD LOCK

The child lock feature is especially important for households with small children, as it prevents them from accidentally activating the device during playtime.

## INTENSE CLEANING

The water streams intensity is adjusted to provide maximum performance, in order for the dishes to be perfectly clean.

## EXTRA DRYING

For all those dishes that need extra drying, we've added an additional useful option that is compatible with Intensive, Universal, ECO, Glass and 90 minutes programs. It allows you to customize the washing cycle and adjust it to different needs, as well as avoid the dishes coming out covered in water droplets.

## DELAY START

Did you know you can schedule the dishwasher start time up to 24 hours in advance? Each time you press the button, the start is delayed for an hour.

## ECO PROGRAM

A standard program suitable for everyday dirty dishes – pots, plates, glasses or slightly soiled frying pans.

## EXTRA DRAWER

We've included an extra drawer for cutlery or objects that are typically difĮcult to store, namely long cutlery, so you can wash more in a single load.

## OVERFLOW PROTECTION

Thanks to the Electronic Aqua-stop & OverFlow Protection features, Tesla dishwashers can automatically stop working and pump the water out if a leakage is registered, in order to prevent flooding.

# SMALL DOMESTIC APPLIANCES

# KEY FEATURES

### EASY CLEANING

The bowl and the blades are dishwasher friendly, while the cover is easy to hand-wash.

### REMOVABLE BLENDER ATTACHMENT

Once finished cooking, just detach the blender and rinse it with water for easy cleaning and space-saving storage.

### POWER AT YOUR FINGERTIPS

Powerful brushless motor with Turbo & Pulse functions with 6 speed seamless control makes daily tasks like grinding, mincing & chopping a breeze !

### HANDS FREE

This mixer is a perfect device for a busy kitchen! Just add the ingredients and let it do the work, so you have plenty of time in hand.

### STAINLESS STEEL BLADES

The blades are designed to extract all the nutrients: with this Tesla device, your fruit or vegetable drinks are full of vitamins and ¦ber.

### USEFUL ACCESSORIES

Apart from the motor base and the cross blade, the device package includes a 1000 ml cup, a 700 ml cup, one sports lid and one storage lid.

### NON-STICK PLATES

The plates are aluminum alloy with a non-stick coating, making them scratch-resistant and easy to clean—a perfect choice for your busy kitchen!

### POWERFUL BLENDING

Stainless steel blades are positioned at the perfect cutting angle, in order to easily cut even through hard ingredients.

# KEY FEATURES

## KETTLES

**POWERFUL AND EFFICIENT**

Family or friends gathering? No problem! Our 2200 W devices boil water faster, and their 1.7 L capacity ensures quick serving.

**OVERHEATING PROTECTION**

Kettle auto-off at 100ºC, also turns off if no or insufficient water. Safety ensured!

**STRIX TECHNOLOGY**

Strix kettle control is designed to comply with all relevant international standards, manufactured to exceed 12.000 cycles of normal operation.

# KEY FEATURES

**EASY CLEANING**

Our microwaves are easy to clean; they do not absorb moisture, smells or food aromas. No new dish will smell like the previous one!

**CRISPY GRILL**

Prepare food that is crispy on the outside, but juicy inside! The new cooking feature will open a whole new world of taste.

**PRESET FUNCTION & AUTO MENU**

Just pick the food type and weight, and the oven will do the rest, adjusting power and time. The memory function is handy for your favorite dishes!

# AIR
# FRYERS

# KEY FEATURES

## NON STICK COATING

The non-stick coating ( Food Gade ) facilitates easy food release and prevents residues from sticking to the surface, making cleaning a breeze.

## TOUCH BUTTONS

Eating healthier just got simpler with the Touch Button feature. Crisp up your veggies with a tap and savor the goodness guilt-free!

## AUTO POWER CUT OFF

Tesla Air Fryer's auto power cut-off feature ensures that the appliance switches off when your meal is done, offering you peace of mind and perfectly cooked food.
